at this time, will not be in a position to make war upon all Europe. In which event our government will be in position to make a virtue of necessity and let our rights go when an honorable protest has been made against the injustice it will have received from the combined power represented by the bandit nations.

It is scarcely within the range of possibility for the nations of Europe to agree upon any basis of settlement respecting a division of territory. Such being true it would place the matter in a take and hold condition, which would most certainly cause war between the nations engaged in the work of appropriation. Should war arise upon a disagreement about territory, our relation will be hands off while the nations engaged in a grand fight to a finish, which will require time should Germany remain neutral.

China is a boiling caldron full of causes sufficient to bring desolation to a hundred thousand homes, and it may be more before the heatless is finally disposed of to his future advantage and to the up-building of a Christian world. There will be no retrograde movement as a whole, as that would be against the order of things, but the struggle may be so severe that the advantage gained to civilization may not make an appearance in force for many years to come.

Should it be the plan of Russia to take for its use a large part of China, which seems foreshadowed by its aggressive action at this time to be its intention, the forbearance of other powers may not be sufficient for the purpose of the hour, and the dogs of war may be turned loose upon its trail until it is brought to bay, which will bring contention in war of no mean order.

Should Russia become too avaricious and take a large share of China, the United States may not be without cause for a quarrel of its own with that power. The treaty rights of the United States are such that they will not be permitted to be set aside by the bear of the north without a protest. What the nature of the protest may be the action of Russia will determine. Should it be war, there will be all the trouble in it we can care for in the near future, but whatever it may be the patriotism of the people will be sufficient for the purpose, unless it is likely to bring to them an additional outflow of imperialism in the form of gold and glory, in which event there are no treaty rights that will compensate for a loss of rights which include liberty and the republic in the loss.

There are no treaty rights stored in the archives of the country that can have the weight of a feather against the liberty and rights of the people, and the preservation of the republic is one of those rights which is above price. The United States has treaty rights of a commercial nature with China that are becoming more valuable each year by a continued increase of trade with that country, which Russia will not take away at its mere good pleasure. These commercial rights extend to the whole of China and are of a value present and future that will not admit of any honorable surrender at the will of Russia or any other power.

The two countries have been on the most friendly terms for years, and it would be a proceeding very much to be regretted should it become necessary to maintain our rights by force. Every means, should occasion come to protest, will be exhausted it is to be hoped before force will be entertained. There could not arise any occasion for trouble between the countries except in the event of a dismemberment of the Empire and an appropriation by Russia of a part of Chinese territory sufficient to affect our trade relations.

The stupid determination of the Empress Dowager sustained by the ignorance and superstition of her people called Boxers, is giving an opportunity that is sought by the powers to dismember the Empire. Should dismemberment be agreed upon between them. Should it be arranged by European powers to divide the Empire, the United States, strong as it is

The readers of this paper will be pleased to learn that there is at least one divided disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity, Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PROSPECTS AND MINES CLAIMS ARE RECORDED

How Things Are Being Whooped Up in Reno Mining District.

There was a steady stream of vehicles all day yesterday to and from the new diggings.

Messrs. Burton, Parry, Ritter and Soldmore will put four or five men to work on their claims on White Hill.

An ore house is being built at the Wedekind mine. As some of the rock is worth more than \$30 a sack, it can't be left out of doors to tempt the weak and erring.

W. A. Kelly is working up a hundred thousand deal on the Reno Star group. He is keeping the wires hot and expects to complete the transaction in a few days.

With the two smelters at the Reno Reduction works and the eighty-ton smelter of the new company all running, the iron ledges near town will soon appreciate in value.

A hundred ounce assay was talked of on the streets yesterday, but the owner of the little slip of paper would neither affirm nor deny the figures. As he bought grub and tools and threw up his job, there must be something in it.

MINES AND MINING

Items About Nevada's Leading Industry Clipped From Exchanges.

F. O. McNeil and Hank Ensign returned to Austin Wednesday, from a prospecting trip in Chubash and Humboldt counties. They succeeded in finding a valuable ledge of copper ore 15 feet in width.

The Gould & Curry Mining company have awarded a contract to the Westinghouse Electric and Engineering Co. for the construction of the electrical machinery to be installed in the new mill now being built for the first named corporation. The machinery is to be delivered within sixty days.—Report.

A big chunk of pure white quartz containing free gold was struck on the roof of the raise on the 1950 level of the Con. Virginia mine last week, and as the ground from which this piece of quartz was extracted is yielding rich ore a bonanza may be struck at any time. The quartz resembles that found in the mines of Grass Valley.—Enterprise.

Low Grade but Profitable.

On at least a dozen of the recently located claims near this city rock assaying from \$2.50 to \$4 a ton has been found. As these figures are so completely overshadowed by the Wedekind returns, little faith is pinned to the discoveries.

The fact, however, remains that the bodies of ore from which these assays are returned are immense on the surface, and doubtless will improve with depth.

With the prospects for electric power, plenty of water and other accessories of cheap mining, these ore bodies would yield a profit if worked on a large scale.

Don't get discouraged at a low assay but keep digging. Stamps galore will be dropping on the dyke before another spring or this prophet misses his guess.

The Relay Race.

The Wheelmen are putting forth every effort to make the relay race on the 24th a success. Both the Carson and Reno teams are getting into the pink of condition, and on that date will go on to the track fit to make record breaking rides. King Ryan says he hasn't got a selling plaster in the bunch, and reports from Carson are to the effect that that team is superior in every respect to last season's team, and that a good crowd will come down to witness the race.

The track will be put into first class shape for fast riding, and all other details are being given consideration, so that everything will pass off without a hitch. Admission, only 25 cents. Go and spend a pleasant afternoon.

High School Graduates.

Following are the students who will graduate from the Reno High School Friday evening:

Mary L. Benson, Mabel H. Blackles, Fredrick J. Delonchant, Allen S. Ede, Annie I. Franden, Agnes P. Gibson, Ralph W. Julien, Raymond N. Leonard, George D. Lyman, Fred A. Nathan, William J. O'Neil, S. Seabury Casworth and George H. Ward.

Harry Clausen's waiters and bar keepers were kept on the rush last night serving a swarm of prospectors with fried trout and ice cold beer.

Gold, Silver and Copper Ledges Located by Prospectors.

The following mining claims were placed upon record last week in addition to those mentioned yesterday:

June 16—Smith & Kelley No. 1, Reno district, G. J. Smith and J. P. Kelley.

June 16—Smith & Kelley No. 2, same as above.

Three Japanese Globe Trotters.

An interesting trio is at present in this city. It consists of I. Marts, T. Ohdo and Dr. M. Moriyama. They are three very intelligent young Japanese and are making a tour of the world in order to study the various languages, customs and laws.

Dr. Moriyama is head of the party and is in the employ of the government. The others are newspaper correspondents sent by the progressive Japanese dailies.

The party left San Francisco June 1st. They will cycle across the continent and will spend the winter in the south of Europe. Next spring they will finish their journey via Russia and Siberia, which they will traverse on their wheels.

The young Orientals take especial pleasure in inspecting public institutions and studying the political economy of the countries they visit.

Criticism for a Corporation.

Colonel William Thompson, the veteran journalist and Indian fighter, now editor of the Alturas Plaindealer, was one of the passengers held at Truckee the other day by the freight wreck at Libham bridge.

Col. Thompson and a Russian army officer put in part of their weary wait by strolling down the track. The rotten ties, absent spikes and loose fish plates immediately attracted the foreigner's attention. He told the Col. that he feared our government was remiss in its duties toward its citizens by permitting a wealthy corporation to put human life in jeopardy in order to save a few dollars.

A Washoe Producer.

Not all the good mines around Reno have been found yet but there is more than one good producer already.

J. J. Jackson's Snowbound may be counted on the list. This property is situated two and a half miles east of Washoe near the Harris mine.

This property varies from several inches to three feet in width. It is quartz veined with porphyry and clay.

A run has been made of 3,600 pounds. The plates caught \$238. The pulp will yield another good draw down.

Monkey and Parrot Episode.

There was a beautiful Kilkenny cat time in Virginia Sunday when the Carson baseball team tried conclusions with the Reports of that city.

Everything went lovely as the new engine house bell until one of the players got hurt. The intermission was filled in with a gorgeous free-for-all. A spectator informs the writer that the whole field was filled with driving maniacs who thrated for gore, but wanted some one to hold them. Although the score was in Carson's favor the umpire declared it no game and all bets off.

Drifted Back Again.

A number of mining men are drifting into Reno in the vanguard of the boom. Among them is E. M. Reed, an old timer in this city, but for twenty-two years past a residence of San Francisco. Mr. Reed has taken up a claim or two and expresses himself as certain that a boom is on.

Remarkable Cure of Rheumatism.
KENNA, Jackson Co., W. Va.
About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size.

Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since—A. B. PARSONS. For sale by Wm. Pinniger.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be means of saving other lives. For sale by Wm. Pinniger.
